Pay Your Fee Directly To Host Families

Thousands of volunteers join volunteer abroad program and pay as much as \$3000 for a 2 weeks experience. Unfortunately, only a small portion of it goes to the host family/project. And when you stay with the host family, gradually you learn that your host family is getting a very small fraction of it. You may wonder “where the heck is all that money going” and “does anyone actually care about the projects and host families”? Therefore, to maintain the honesty and financial transparency, we adopted a model where you pay your fees directly to the host families and projects (through country coordinator).

Our Experience Of 8 Years & 17,000 Happy Volunteers

When you join IFRE volunteers, you will be part of an establishment which has received highly positive feedback and become a reputed volunteer organization globally.

India - Country details

Ethnically, culturally, linguistically, religiously diverse, India is truly a subcontinent. More than in most countries, visitors come here with an itinerary for not just days or weeks, but months. Enjoy the bustle of Delhi or Kolkata, or Bollywood industry and glitz of Mumbai. Watch ceremonial bathing in Varanasi along the holy Ganges River, take a boat ride through the scenic canals of Kerala in the far South, get fascinated by the desert landscape of the West in Rajasthan and snake through the soaring snowcapped Chang La pass in the far North in Ladakh. The lovely lake and houseboats of Kashmir are worth a visit, as is the splendid Vale of Kashmir. This land of great variety and more than a billion inhabitants is a land of adventure and hardships that are part of the fun.

Volunteers' qualifications

No special skills are required for participating for most IFRE programs other than being open-minded, passionate about serving humanity, physically fit and ready for the hardships of living in a developing country. Volunteers for health projects need to be a medical professional or studying to become one. Teachers in English teaching projects must be fluent in English. In health project, volunteers must be either medically trained professionals (doctors or nurses) or currently on the process of being trained (medical students). You must produce proof of this.

Orientation

The seven-day Language and Cultural Immersion Program offers unique insight into Indian culture and living. Participants will learn basic words and phrases in Hindi. Some knowledge of local do's and don'ts will be shared. Knowledge on everything from politics to transportation will be passed along as well. Volunteers will also be taken on a sightseeing tour of Delhi.

Volunteers who do not opt for the Language and Cultural Immersion Program will get a 1- to 2-hour country orientation session.
